Bladeless Tower Fan

Colour: Gray

3 Speed Levels

Choose the ideal airflow intensity according to your personal comfort – from a gentle refreshing breeze to powerful ventilation during hot summer days.

Air Ionization

The built-in ionizer helps purify the air by reducing dust particles and creating a fresher and more pleasant indoor environment.

LED Display with Touch Control

The modern LED display provides intuitive one-touch operation and quick access to all fan functions.

Up to 8-Hour Delayed STOP Function

The practical timer allows the fan to switch off automatically after a selected period of time – ideal for nighttime use and comfortable sleep.

Temperature Indicator

The integrated temperature indicator displays the current room temperature.

Remote Control

Conveniently control all functions remotely.

Dust Filter

The special filtration system helps capture dust particles, contributing to cleaner indoor air.

60° Wide-Angle Oscillation

The oscillation function distributes airflow evenly across a wider area.

Breeze Mode

Creates a natural wind-like sensation through variable airflow intensity, ensuring a more comfortable and refreshing atmosphere.
