

Technologies:

ENERGY SAVING, RELIABLE, LONG LIFE

- **ENERGY SAVING** - insulation made from directly sprayed CFC-free polyurethane foam of 85 mm thickness and a metal sheathing to guarantee minimum heat losses;
- **LONG LIFE** - water tank coated with wear-proof zirconium enamel and two magnesium protectors for optimal corrosion protection of the whole volume;
- **RELIABLE** - with a unique protection;
- Circulation socket;
- Thermometer;
- Electrical tube heater designed especially for this model and manufactured by a last generation technology.

Capacity range:	200
Water tank:	Enameled
Nominal power (kW):	3
Energy efficiency class:	C
Dimensions ØxH [mm]:	600 x 1430
Voltage [V]:	230 V~
Method of water heating:	Electric heating element
Pipes diameter (plumbing system / heat exchanger):	3/4"
MIX 40°C [l]:	372
Nominal pressure [MPa]:	0.8
Annual electricity consumption [kWh/annum]:	2375
Load profile:	L
