

Technologies:

ELDOMINVEST, as a leading Bulgarian manufacturer of energy-efficient appliances, follows market trends to ensure comfort in homes, offices, and hotels. Wall-mounted buffer tanks with a capacity of 30 liters are a compact addition to the portfolio of alternative energy appliances:

- **Easy installation and maintenance** - 1/2 inch nipples for air release and drainage of the appliance, located at the bottom of the buffer
- **4 G1 1/4 F size outlets** - for 30 liters
- **2 openings for sensors** - flange with a thermal sensor tube and a socket for

a thermostat

- **Minimum heat loss** - thick CFC free insulation
- **SHIELD technology** - a unique formula for wear-resistant enamel coating for durability and long life of the water tank
- **Effective operation in two modes - Heating and Cooling**
- **Perfect addition and for other systems (heating, cooling systems)**
- **Two sockets for thermo sensors**
- **Domestic hot water**

Capacity range:	30
Energy efficiency class:	C
Weight [kg]:	15
Dimensions ØxH [mm]:	387 x 535
Water tank:	Enameled
Nominal pressure [MPa]:	0.7
Number of heat exchangers:	-
Standing loss [W]:	46
