Instantaneous water heaters ELDOM γ E32

Series:

Gamma

Technologies:

IP24

Introducing ELDOM γ instantaneous water heaters - our latest stylish and practical solution for quick and easy access to hot water
ELDOM γ are suitable for installation in any area with access to water and electricity. They combine the functions of a water heater and a mixer tap in one. They can be connected both above and below the kitchen countertop without having to make new holes for electrical installation.

- **360° rotating lever** - ELDOM γ gives you a flexible installation solution with a 360° rotating lever.
- **Temperature control and LED display** - Adjust the desired temperature thanks to a mechanical regulator and an intuitive LED display that shows the degrees of the water.
- **Detachable plug for easy installation** - Designed to simplify the installation process, this plug ensures quick and easy installation tailored to the specific room.
- **Endless Hot Water** – Instantaneously heating of the water as it passes through, it ensures a steady and continuous flow of hot water at all times.
- **High quality materials** - The housing is made of high quality CrNi stainless steel, ensuring durability and reliability.
- **Safety** - ELDOM γ is distinguished by its full compliance with all European standards and requirements for safety and efficiency.
- **Economy** - The instantaneous heating of water ensures minimal heat loss and saves energy.

Installation:	**for sink**
Energy efficiency class:	**A**
Nominal power (kW):	**3.3**
Voltage [V]:	**230 V~**
Height x Width x Depth [mm]:	**276 x 191 x 57**
IP protection:	**IP24**
Load profile:	**XXS**
