# Instantaneous water heater ELDOM γ 34 for sink

**Series:**

Gamma

**Technologies:**

IP24

**Introducing our new ELDOM γ instant water heaters - with flexible winches in white and black. Our latest stylish and practical solution for quick and easy access to hot water.**

- 360° rotating winch - ELDOM γ gives you a flexible installation solution with a 360°

rotating winch.

- Adjustable temperature and LED display - Set the desired temperature thanks to a mechanical regulator and an intuitive LED display that shows the current degrees of the water jet.
- Removable flexible winch - Allows precise adjustment of the angle, height and range of the water jet to meet every need.
- Detachable plug for easy installation - Designed to simplify the installation process, this plug provides quick and easy installation, tailored to the specific room.
- Endless hot water - Instant heating of water as it passes through the boiler ensures a stable and continuous flow of hot water at all times.
- Safety - The ELDOM γ series is distinguished by its full compliance with all European standards and requirements for safety and efficiency.
- Economy - Heating the water at the moment of passing through the device ensures minimal heat loss and saves energy.
