Introducing the **ELDOM EP91 instantaneous electric water heater** – a premium solution that combines modern design, intelligent control and instant access to hot water.

The **EP91** uses advanced instantaneous heating technology, heating water in real time without the need for a storage tank or waiting time. The appliance offers three power levels and intelligent operating modes, allowing precise control according to individual preferences.

- **Premium design with a glass panel** – The elegant glass panel and clean lines make the EP91 a stylish addition to any modern interior.

- **Unlimited hot water** – Instantaneous heating technology heats the water in real time, without the need for a storage tank or preheating. You get hot water exactly when you need it.
- **Three power levels** – The EP91 offers **6.5 kW, 7.5 kW and 8.5 kW**, while dynamic power adjustment optimizes the appliance's operation according to the current demand.
- **Intelligent modes for maximum comfort** – Choose between **Manual Mode, BASIC - 40°C, CHILD - 38°C** and **ADULT - 42°C**. This allows every member of the family to easily select the temperature that best suits their needs.
- **LED display with real-time temperature indication** – The large LED display shows the current water temperature, providing continuous control and precise temperature adjustment.
- **Dynamic power control** – Intelligent control automatically adjusts the power according to the current water consumption, ensuring optimal comfort and efficient use of electricity.
- **Reliable encapsulated aluminium heating element** – The heating element does not come into direct contact with the water, reducing limescale build-up, enhancing reliability and contributing to a longer service life.
- **Easy installation** – The EP91 is supplied with the essential components required for quick and convenient installation, including a mounting kit, mounting brackets, wall plugs and screws, seals and a power cord.
- **Safety and reliability** – The EP91 is designed with reliable technology and safety features to ensure secure and comfortable everyday use.

ELDOM EP91 – more comfort, more control and more style. **Instant hot water, precisely tailored to your needs.**

Installation:	For bathrooms
