Water heater 80 L, anode tester, matte black

3 kW, slim design, enameled

Technologies:

We present to you a next-generation ELDOM water heater in modern matte black.

• ENERGY SAVING - the thick insulation of 33 mm Closed-Cells HFO polyurethane foam ensures extremely low heat losses and saves money;
• LONG LIFE – water tank coated with a wear-proof zirconium enamel and two magnesium protectors for an optimal anti-corrosion protection of the whole volume;
• RELIABLE – with a reliable "6-level protection"
• External capillary thermostat – for setting the water heating temperature;
• Combined safety valve – jointly acting as balance and non-reverse and differential valve;
• Specific oval flange – of a special construction to guarantee your safety;
• Electrical tube heater – designed and manufactured by ELDOMINVEST, by a last generation technology;
• Illuminated switch;
• Optionally, it is possible to fit an anode tester to control the corrosion protection state.

Installation:	**Vertical**
Capacity range:	**80**
Water tank:	**Enameled**
Nominal power (kW):	**3**
Energy efficiency class:	**C**
Control:	**mechanical control**
Type of electric heating element:	**Immersion heating element**
Weight [kg]:	**28**
Dimensions ØxH [mm]:	**387 x 1125**
Voltage [V]:	**230 V~**
Nominal pressure [MPa]:	**0.8**
IP protection:	**IP24**
Annual electricity consumption [kWh/annum]:	**1375**
Nominal volume [l]:	
Load profile:	**M**
Colors:	**Black Matte**
